

Bob's 2005 shiraz

AFRICAN

In 1994, President Nelson Mandela invited the world to embrace the New South Africa. I traveled there soon after, only to fall in love with a land and people uplifted by truth and reconciliation. Today, 350 years after the first vines were planted, the wines of the Rainbow Nation are achieving international acclaim, offering elegant flavors that are beautiful expressions of South Africa's physical and cultural diversity. I hope this Shiraz ignites your interest in learning more about the importance of South Africa, its people, and its cultures. Please drink responsibly.

Mindful of the ongoing catastrophic impact the HIV/AIDS virus is taking on the African continent, 10% of Bob's African import sales benefit non-profit international aid agencies fighting the pandemic in Africa. To learn more, please visit www.fatbarrel.com. Thank you.
